DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a fuel cell system.

Group II, claim(s) 9, drawn to a gas control method of a fuel cell system.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical features between the groups are the fuel cell system comprising: a fuel cell having an anode and cathode, a load device, a gas permeation quantity estimating unit (i.e., computer or controller), a gas supply unit, and a correction unit (i.e., flow limiting valve). A comparable fuel cell system which comprises analogous structural features is described in JP 2002-352837, which features are namely: a control part (controller, abstract), a fuel gas supply device (abstract), a supply pressure control valve (abstract), a fuel cell stack (abstract), a load device (§ 0005), appropriately placed gas pressure sensors (§ 0039), an anode and a cathode (§ 0002).

A telephone call was made to Rich Castellano on 05/03/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JARED WOOD whose telephone number is (571)270-5911. The examiner can normally be reached on Monday - Friday, 7:30 am - 5:00 pm, EST.
